

Dynavyte

PETS

✓ 100% Natural

✓ 100% Organic

A naturally fermented liquid vitamin and chelated mineral trace element supplement for cats and dogs.

Pets Senior also contains Collagen Hydrolysate to maintain bone health.

Dynavyte Pets is a naturally fermented organic liquid vitamin and mineral supplement for dogs and cats.

Dynavyte Pets is a new product developed in conjunction with animal nutritionists and veterinarians to assist in nurturing digestive system microflora, and to provide essential vitamins and minerals to the pet dog or cat.

Dynavyte Pets is a palatable, sweet smelling liquid derived from natural fermentation methods to ensure that all ingredients may be easily absorbed from the animal's gut.

DYNAVYTE PETS AND PETS SENIOR CAN PROVIDE VITAMINS & MINERALS TO NURTURE YOUR PET'S DIGESTIVE SYSTEM

Dynavyte Pets may be added to the daily feed, or dosed orally on a daily basis. It is a completely natural and organic product, containing no synthetic chemicals or hormones.

DYNAVYTE PETS SENIOR ALSO CONTAINS COLLAGEN HYDROLYSATE FOR BONE HEALTH

It is well suited to fortify the diets of all working and racing dogs, as well as those animals that are being used for breeding.

Many of the trace minerals and vitamins contained in Dynavyte Pets are essential to maintain healthy skin and coat, and therefore using this product on a daily basis may help to improve the coat and skin of show animals. It is also useful for geriatric animals and any animals suffering from chronic disease, as many of these trace minerals enhance immune function.

Each Litre Contains:

Thiamine (Vit B1)	375mg	Selenium	10mg
